

VAIBHAV GHOSHI

full stack developer

vaibhav7290119@gmail.com | [portfolio](#) | [github](#) | [Linkedin](#)

SUMMARY

Full-stack developer in progress with hands-on experience in APIs, authentication, and frontend development. Built responsive web applications and continuously improving problem-solving skills. Driven to learn fast and build impactful tech solutions.

WORK EXPERIENCE

Kiwi connect digital,bhopal

april 2026 – june 2026

- Designed and developed full-stack web applications with RESTful APIs and database integration
- Implemented authentication and authorization systems using JWT and bcrypt for secure access control
- Optimized frontend performance and ensured responsive design across devices
- Deployed applications on cloud platforms and managed server-side configurations

PROJECTS

Productive Social Media

- **High-Performance Architecture:** Designed a scalable REST API using Object-Oriented Design principles in node;
- **Caching:** implemented Redis caching to serve leaderboards with sub-millisecond latency.
- **Github sync:** Integrated GitHub APIs for automatic activity sync. • **Real time Processing:** Designed backend for real-time updates
- **Chat:** used websockets for the real time chat feature
- **Leetcode:** implemented leetcode api to give daily leetcode question and solution verification

EDUCATION

Btech (artificial intelligence)

Aug 2024 – Feb 2028

technocrats institute of technology(tit).

Final CGPA: 7.5

- Developing full-stack development skills with hands-on project experience
- Studying core CS subjects including Data Structures, Operating Systems, and DBMS
- Actively engaged in self-driven learning, coding challenges, and real-world project building

KEY SKILLS

- web development
- dbms
- computer networking
- deployment
- quick learner
- Problem-Solving
- Time Management
